

Dear WOC Research Employee,

To continue working as a Without Compensation Research Employee with the Department of Veterans Affairs – VA Ann Arbor Healthcare System, you are required to complete three mandatory training programs titled:

- 1) *VA Privacy and Information Security Awareness Training and Rules of Behavior* (annually)
- 2) *Privacy and HIPAA Training* (annually)
- 3) *Infection Control: Bloodborne Pathogens and Tuberculosis* (annually)

These trainings are offered through the VA Talent Management System (TMS), a system that offers web-based training to VA employees and its partners.

FOR PERSONS ALREADY REGISTERED IN TMS

If you are already registered in TMS and have taken courses in the past, you do not need to register again. You will be notified of courses you must complete through e-mail communication.

FOR PERSONS NOT REGISTERED IN TMS

You must self-enroll for a profile on the VA TMS by visiting <https://www.tms.va.gov/plateau/user/login.jsp>. Once there, you should follow the steps below to create a profile, launch the mandatory training, and complete the content prior to your next day at VA. **You will need to assign the Bloodborne Pathogens Training to your Learning Plan after validation of your account by the Research Office.** This can be done by searching the CATALOG box in the upper right hand corner of the TMS Home Page.

Upon completion, you should provide your printed certificate of completion from the TMS while in processing for your WOC Appointment. This certificate displays your TMS User ID.

Managed Self-Enrollment (MSE) enhances VA's training and reporting compliance, and is another step toward establishing VA as a 21st century organization built on providing the best care and service possible for our Veterans!

Sincerely,

Catherine Kaczmarek
Staff Assistant, Research Service

Should this be the case with your computer, please follow the instructions to bring your computer up to the standards that will work with the VA TMS.
